EDUCATION

FAST National University of Computer and Emerging Sciences **Islamabad, Pakistan**
B.S. in Computer Science *Expected Graduation, August 2027*

- **Concentrations:** Web Development, Object-Oriented Programming
- **GPA:** 3.72/4.00, *Dean's List*

PROJECTS

Chatting App **Islamabad, Pakistan**
Full Stack Development *February 2024 – March 2024*

- Built an **ExpressJS** API for user authentication, registration, and management using **Passport.js** and bcrypt. Integrated MongoDB for data storage and retrieval.
- Implemented endpoints for retrieving chats based on user IDs, creating new chats, fetching chat details, sending messages, and deleting messages.

Premier League Statistics **Islamabad, Pakistan**
Full Stack Development / Web Scraping *March 2024 – April 2024*

- Utilized **BeautifulSoup** and requests to scrape and process Premier League player statistics from fbref.com, saving structured player data.
- Integrated with pymongo to connect to **MongoDB** Atlas, parsed and processed player statistics, and inserted the data into a MongoDB collection.
- Created a RESTful API using ExpressJS to query player data, with endpoints for fetching all players, querying by first and last name, and advanced search. Deployed the server on **Railway**.
- Developed a **React** application showcasing players and squads with filtering capabilities, utilizing data from the **ExpressJS API**. Deployed the interactive frontend on **Netlify**.
